Integrated Pest Management	1	175
Adequacy of Prerequisite and Food Safety Programs	0	185
* Those items identified by the auditor as "improvement needed"		
Overall Score		<b>905</b>

### Detailed Summary of items noted during audit

The bottom flap of the supersack had been cut off. This could create a potential hazard.

The mesh screen over the exhaust fan should be replaced with a smaller mesh size.

The pest management contract did not include light trap inspections (the inspections were being conducted). One light trap should be relocated.
